

**International Conference on Pesticide Application for Drift Management
October 27-29, 2004
Waikoloa, Hawaii**

Table of Contents

Conference Sponsors	i
Table of Contents	iii
Agenda	1
Advisory Committee and Contributors	6
Exhibitors	7
Speaker Biographies	9

Invited Presentation Articles, *presenter* (in order of presentation)

The Importance of Spray Drift Management around the World, <i>Dr. Frank Hall</i>	20
--	----

Session 1: Incentives for Drift Management

Spray Drift and Human Health Incidents, <i>Barbara Morrissey</i>	28
Measuring Human Exposures from Spray Drift, <i>Dr. Kai Elgethun</i>	33
Impacts of U.S. Court Cases on Application Technology, <i>Dr. Allan Felsot</i>	53
Protecting Aquatic and Riparian Areas from Pesticide Drift, <i>Dr. Tom Wolf</i>	59
Balancing Drift Management With Biological Performance and Efficacy, <i>Dr. Reinhard Frießleben</i>	72

Session 2: Regulatory Issues

Australia: Regulatory Goals and Approaches, <i>Dr. David Loschke</i>	80
U.S. EPA Approach to Spray Drift Management, <i>Jay Ellenberger</i>	83
Canadian Regulatory Goals and Proposed Approach to Buffer Zones, <i>Ted Kucknicki</i>	84a-n
German Regulation – Drift Modelling, <i>Dr. Peter Kaul</i>	85
Aspects to Consider for Vector Control, <i>Mark Latham</i>	97
Association of American Pesticide Control Officials’ Perspectives on Management of Drift and Secondary Movement, <i>Paul Liemandt</i>	102
State-Specific Drift Rules to Provide for Protection and Enforceability, <i>Dave Scott</i>	105

Session 3-A: Drift Mitigation Technologies

Nozzles for Drift Management, <i>Dr. Robert Wolf</i>	106
Ground Field Sprayers for Drift Management, <i>Dr. Robert Wolf</i>	107
Sprayer Adjustment and Vine Canopy Parameters Affecting Spray Drift: The Italian Experience, <i>Dr. Paolo Balsari</i>	109

Prevention Is Better Than Cure - Reducing Drift From Vineyard Sprayers, <i>Dr. Andrew Landers</i>	116
Tower Sprayers Target Canopy to Reduce Drift, <i>Dr. Gary R. Van Ee</i>	125
Precision Agriculture and Drift Management, <i>Dr. D. Ken Giles</i>	127
Pesticide Chemistry and Adjuvants, <i>Dr. Andrew Hewitt</i>	132

Session 3-B: Drift Mitigation and Vector Control

Mosquito Adulticide Efficacy Data and EPA Insecticide Registration: A Global Perspective, <i>Dr. Kevin Sweeney</i>	136
Technical and Regulatory Perspectives for Mosquito Control Practices and Product Labeling, <i>Dr. Norman Birchfield</i>	139
Application Considerations for Mosquito Control, <i>Mark Latham</i>	143
Sampling and Optimization in Mosquito Control, <i>Dr. Jane Barber</i>	150
An Industry Perspective on Atomizers and Chemicals, <i>William Jany</i>	155

Session 4: Environmental Conditions

Meteorological Concepts in the Drift of Pesticide, <i>Dr. Harold Thistle</i>	156
Hedgerow Filtration and Barrier Vegetation, <i>Dr. Jan van de Zande</i>	163

Session 5: Drift Research and Management

Regional Off-Target Movement of Auxin-Type Herbicides, <i>Dr. Vincent Hebert</i>	178
Characterization of Propanil Prune Foliage Residues as related to Propanil Use Patterns in the Sacramento Valley, California, <i>Dr. Terrell Barry</i>	184
Establishing Buffers: Protocols and Toxicological Benchmarks, <i>Dr. Allan Felsot</i>	199
U.S. EPA's Research Proposal for Encouraging the Use of Spray Drift Reduction Technologies, <i>Dr. Gregory Sayles</i>	204
An Attempt to Relate Drop Size to Drift Risk, <i>Dr. Alvin. Womac</i>	210
Australian Developments in Spray Drift Management, <i>Dr. Nicholas Woods</i>	224

Session 6: Applicator Education

How to Monitor Meteorology in Support of Pesticide Application, <i>Dr. Harold Thistle</i>	232
Nozzle Selection Guidelines for Optimum Efficacy and Drift, <i>Dr. Tom Wolf</i>	241
Information Transfer Disconnect: Technology, Labels, and Applicators, <i>Carol Ramsay</i>	246

Session 7: Best Management Practices Workshop: Resource Documents

Excerpts from US National Pesticide Safety Education Core Manual	250
DRAFT Best Management Practices for Boom Spraying (PM-23 ad hoc committee)	254
DRAFT Best Management Practices for Airblast/Air-assist Treatment of Tree/Vine/Bush Crops	262
DRAFT Best Management Practices for Aerial Application of Pesticides	264

US EPA Draft Pesticide Registration (PR) Notice 2004 –xx: Labeling Statements on Products Used for Adult Mosquito Control.....	270
---	-----

Poster Abstracts (alphabetically by title).....	280
--	-----

Poster Schedule for authors to be present at their poster	293
--	-----

Poster Articles that were submitted (alphabetically by title)

1. Best management practices for orchard spraying: protecting water quality in the Hood River Basin of Oregon, USA.....	295
2. Combining spray drift and plant architecture modelling	297
3. Cotton response to simulated drift rates of seven hormonal-type herbicides	302
4. Drift characteristics of boom sprayer nozzles measured in a wind tunnel	309
5. Drift hazard assessment using CART – cumulative agrichemical residue tracking	316
6. DRIFTSIM -- A user-friendly computer program to predict drift distances of droplets	317
7. Droplet sizing and imaging of agricultural sprays using particle/droplet image analyses.....	324
8. Educating and training pesticide applicators in Australia.....	330
9. Effect of a herbicide and additives on spray particle sizes and size distribution	333a-e
10. Effect of drift control adjuvants on efficacy and spray patterns of Roundup D-pak™ and Roundup Weather Max™ applied with extended tange spray nozzles	334
11. Effect of Sprayer Speed on Spray Drift	339a-j
12. Evaluation of upwind/downwind boom switching and propeller direction on drift of aerially applied spray	340
13. Field test comparisons of drift reducing products for fixed wing aerial applications ...	348
14. Influence of reference nozzle choice on spray drift classification	359
15. Interactive effects of spray quality, air induction and herbicide mode of action on weed control	366
16. Modelling canopy interactions for drift mitigation	370
17. Modelling wind tunnel drift measurements	378
18. Reducing drift and improving deposition in orchards.....	380
19. Reducing drift and improving deposition in vineyards.....	385
20. Reducing driftable fines in aerial application of pesticides by controlling nozzle environment	392
21. Regional pesticide recommendations of the U.S. Fish and Wildlife Service for protection of threatened and endangered species	408
22. Research to reduce potential damage from spray drift loss by the USDA-ARS Application Technology Research Unit	414
23. Results from field scale trials comparing air induction & standard flat fan nozzles at reduced volumes	422
24. Risk assessment of malathion drift to home gardens in the boll weevil eradication program.....	427

25. Simulated drift of glyphosate and imazamox on winter wheat.....	430
26. Yield and physiological response of nontransgenic cotton to simulated glyphosate drift.....	438

Deposition Modeling for Risk Assessment and Decision Support

Modeling Workshop Abstracts (in order of presentation)

Overview: Deposition Modeling for Risk Assessment and Decision Support	444
AgDRIFT / AGDISP Model Capabilities	444
Recent Additions to the AGDISP Aerial Dispersion Modeling System.....	446
Atomization Models.....	446
AgDRIFT for Ground and Orchard Applications	447
German Drift Model for Field, Orchard and Aircraft	450
AgDRIFT / AGDISP Ground Modeling.....	451
DRIFTSIM -- A User-Friendly Computer Program to Predict Drift	
Distances of Droplets	452
Modelling Canopy Interactions with Orchard Sprayers.....	452
Spray Advisor	453
Demonstration of SPRAYTRAN: A GIS-Based Atmospheric Dispersion Model for Estimating Spray Drift.....	453
A Numerical Study of Near-Field Dispersion within and above Forest Canopies	454
IDEFICS	455
IMAG Drift Calculator	456

Appendices for Fact Sheets

What’s new with nozzles – 2004	458
Nozzle types for boom sprayer applications of crop protection products.....	464
Making sense of new nozzle choices	468
Equipment to reduce spray drift.....	474
Choosing drift-reducing nozzles	478
Effectiveness of Turbodrop® and Turbo Teejet® nozzles in drift reduction	486
New nozzles for spray drift reduction.....	488
Effect of major variables on drift distances of spray droplets	492

Participant List	504
-------------------------------	------------
