IPM Hands-On Workshops

The workshop topics rotate through the locations over a 5-year period.

IPM Workshop I—Site Preparation and Plant Selection

Bellingham • Whatcom Community College • October 7–8, 2009

Poulsbo • St. Charles Parish • October 14–15, 2009

Two-day hands-on workshop featuring soils and soil microbiology, mulching to reduce pesticide applications, root problem prevention and treatment, site preparation and proper planting techniques, proper plant selection for improved plant health and low maintenance landscaping.

IPM Workshop V—Plant Problem Diagnosis

Chehalis • V.R. Lee Community Center • October 28–29, 2009

Learn to diagnose and manage abiotic and pathogenic disease problems with an IPM approach.

IPM Workshop II—Plant Health and Abiotic Diseases

Puyallup • WSU Puyallup Research & Extension Center • January 27–28, 2010

Learn to properly prune trees and shrubs for improved air circulation, light penetration, and disease management. Learn to diagnose plant problems as the first step in IPM and how to know when you have an abiotic problem. Learn the symptoms that result from herbicide drift.

IPM Workshop III—IPM Turf Disease and Insect Diagnosis

Kirkland • Lake Washington Technical College • February 9–10, 2010

Two-day workshop with a focus on turf problem diagnosis and management. Hands-on sessions include grass identification, turf disease and insect diagnosis and management.

Course time 8:30 am–3:30 pm

Lunch on your own

12 WSDA

recertification credits

Register early.
